Political Bedfellows

Bull moosers are now becoming a drug on the market, since the Nevada branch was adopted by George Springmeyer, the perpetual Carson candidate. The manner in which Springmeyer has made an ass of himself during the last campaign has not been forgotten by the voters of Tonopah and other principal towns in this state. His record has been carefully kept and a few interesting items can be expected before he half starts his campaign. Especially that portion relative to his denunciations of the Southern Pacific railroad and his actions subsequently.

The bull moose organization in Nevada appears to be composed of the discard of both the republican and democratic parties, and their actions at their recent state convention in Reno was such that many men who felt in sympathy with the movement left the hall in disgust. The prime agitators remained and before an adjournment was taken all had succeeded in being nominated for office.

The peculiar part of the entire proceedings is the nomination of Sardinia Summerfield for United States senator and Springmeyer for congress. At the meeting of the republican state central committee in Reno several months ago, both Summerfield and Springmeyer were in attendance. Springmeyer was loaded down with proxies and made an attempt to control the gathering. In this attempt he was unsuccessful, owing to the interference of Summerfield, who, handling the throttle of the steam roller, eliminated Springmeyer entirely. Now the two are brothers in politics and soon should be sharing the same bed.

In the words of former Governor Sadler, "Politics make strange men sleep together."

Attend the Mass Meeting

The mass meeting called by the citizens of Tonopah for tomorrow night should be attended by every person in this city. The question is one of dire importance to the tax payers, for it appears to be the only solution for the securing of protection from fire. The county commissioners have refused to take action and now it is time that the people themselves took an active hand in the governing of the affairs of this city. As long as they hold back Tonopah will continue to suffer from the ravages of fire until the time will arrive when there will be no city left.

With each successive fire the burden of taxation is increased upon the more fortunate property owners whose buildings escape. The only way to secure instant relief is the construction of a reservoir on Mt. Brougner and connect the same with new hydrants constructed to stand the high pressure. This work will cost several thousand dollars and in order to secure funds a special tax should be levied. The tax will be paid willingly by property owners if they are assured that the money will be spent for that purpose and not hoarded by the commissioners in the vaults of the county treasury.

The property owners of Tonopah demand the proper fire protection, and in making the demands are willing to pay their share of the expense. The present water supply is a huge joke and relief can only be secured by the construction of a city reservoir and the installation of fire hydrants to withstand the high pressure.

The attempts of a democratic congress to bully President Taft into approving of a tariff measure based upon anything but reason and good judgment, has twice failed. Now the democrats will spout nothing but tariff speeches in the coming campaign, notwithstanding Governor Wilson's disapproval of the tariff planks in the democratic national platform.

With revolutions in Mexico, Nicaragua, China and Turkey, the nations' four-ring circus appears to be in full swing.
